

Air Frame Inflatable Shelter

BLUE GIANT®

Adaptable element barrier.
Seals gaps while letting in light.

STANDARD FEATURES

- A** Pressure treated non-rot wood framing †
- B** Raked head frame diverts water to sides
- C** Galvanized side supports †
- D** Replaceable draft flap seals bottom gap between trailer and building wall †
- E** 24" (610 mm) yellow guide stripes for accurate truck placement
- F** Translucent polyethylene sheeting on head frame allows light into dock area
- G** Galvanized trim angle will not rust
- H** "STOP" logo on side air bag to prevent trailer from entering dock area if bag is accidentally left inflated

†Not all features visible in photo.

Versatile Door Protection

- The standard sized air frame inflatable shelter unit is designed (but not limited) to suit door openings units up to 10' (3048 mm) wide x 10'-6" (3200 mm) high

Seals a Full Range of Trailer Heights

- Designed to seal a wide variety of trailers ranging from 144" to 162" (3469 to 4115 mm) high and 96" to 102" (2438 to 2591 mm) wide
- Two vertical air bags inflate to seal the sides of the trailer while an inflatable header air bag inflates to seal the top of the trailer, allowing full unrestricted access to the rear of the trailer
- Designed to inflate after the trailer has docked and deflated before the trailer departs to minimize wear and tear on the air bags
- An oil tempered retraction spring deflates the header air bag when not in use
- A 115V ½ HP continuous running motor and blower assembly inflates the air bag system

Options:

- Galvanized head frame with galvanized sheeting
- Galvanized steel backer on verticals
- Additional projection
- Additional drop on header air bag
- Reflective guides (for accurate truck placement)

24" (610 mm) yellow guide stripes

High visibility reverse 'STOP' logo

Building Loading Dock Solutions

Increased Safety and Performance Options

A: Dock Leveler: Blue Giant offers a comprehensive line of dock leveler models to suit the most challenging application and capacity requirements. Available in pit style or vertical storing designs, as well as hydraulic, air-powered, and mechanical models.

B: StrongArm™ Vehicle Restraint: Blue Giant vehicle restraints lock trailers securely into position at the loading dock, providing a solid defense against trailer creep or premature truck departure. Hydraulic, electric, and mechanical models available.

C: Advanced Lights Communication Package: Control panel LED lights and low-profile weatherproof traffic lights keep truck drivers and warehouse employees advised of equipment status. Additional safety provided by mirror-image driver warning signs.

D: Dock Bumpers: Protect your building walls and incoming trailers with Blue Giant dock bumpers. Available in “molded” and “laminated” styles, with an optional steel face plate available, depending on the specific model.

E: Blue Genius™ Touch Control Panel: Revolutionary touch controls allow an entire dock system to be operated from one safe and convenient location. Features rapid-response touch buttons and keypad and an LCD screen that displays real-time operational and troubleshooting instructions.

F: Wheel Chocks: OSHA-recommended for an extra degree of dock safety, Blue Giant wheel chocks manually lock truck wheels in place, preventing shifting or moving during cargo handling. Rubber and laminated versions available.

G: Reflective Guides: Blue Giant Reflective Guides clearly identify the dock location in all weather conditions, safely guiding incoming trucks into the correct position.
